

PERSONAL QUALIFICATIONS

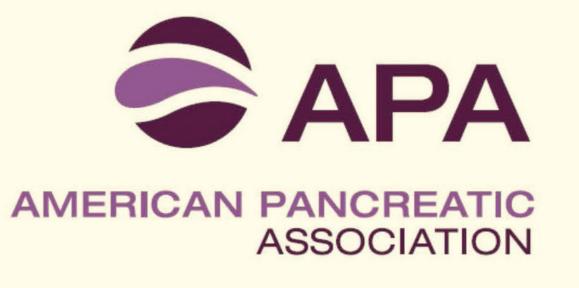

Patient Advocacy in the Pancreatic Cancer Community

- + Founder, Kenner Family Research Fund
- + Board Member, American Pancreatic Association Foundation
- Member, NCI Pancreatic Cancer Detection Consortium
- + Steering Committee, World Pancreatic Cancer Coalition
- + Board of Associate Editors, Pancreas Journal

Founding Partner, Neuropsychological Assessment & Consultation Services, LLP

• with expertise in organization, planning, and strategizing

Proud member of WORLD PANCREATIC

CANCER COALITION

PANCREATIC CANCER INTERCEPTION DREAM TEAM Intercepting Pancreatic Cancer in High-Risk Cohorts

ADVOCATE: BARBARA J. KENNER, PH.D.

KENNER FAMILY

www.kennerfamily

The mission of KFRF is to advance early detection interprofessional strategic collaboration among res foundations. This is done through a three-pronged

Facilitating Collaboration

By facilitating forums and meetings, KFRF promotes collaboration among individuals from around the world whose expertise, skills, and diverse perspectives lead to the creation of new paradigms for the early detection of pancreatic cancer.

Encouraging Idea Genera

KFRF encourage through facilitat support of initia bring together ir with diverse kno develop new ide dynamic convers analyze potentia projects.

The published articles that result from these collaborative forums provide a broader reach of information to the pancreatic community.

THE GOALS OF THE DREAM TEAM

focusing on individuals at high risk of pancreatic cancer, we be to intercept the disease process at a very early stage when it be more successfully treated, and thus save many lives." —Anirban Maitra, M.B.B.S.

- evelopment of a screening program for family members newly diagnosed pancreatic cancer patients
- velopment of a vaccine to induce the body's own mune system to attack the cancer
- evelopment of a blood test for pancreatic cancer that can used for people at high risk

v Role on the Dream Team

- a voice for the patient and family in all stages of research • Provide guidance for patient-facing collateral
- Support collaboration and timely interaction with team members
- + Provide input on translating, developing communications, and disseminating results to the community
