

Early Detection of Pancreatic Cancer: Opportunities and Challenges in Utilizing Electronic Health Records (eHR)

MONDAY, MARCH 29, 2021 · 1:00 - 5:00 PM (EDT)

Jason Perry Block, M.D., M.P.H.

Director of Research and Associate Professor
Department of Population Medicine
HARVARD MEDICAL SCHOOL /
HARVARD PILGRIM HEALTH CARE INSTITUTE

WORKSHOP TOPIC: Population Health Research in PCORnet:
A Large Distributed Research Network

Jason Block M.D., M.P.H., is the Director of Research and an Associate Professor in the Department of Population Medicine at Harvard Medical School/Harvard Pilgrim Health Care Institute. He completed a primary care internal medicine residency and chief residency at Brigham and Women's Hospital and was a Robert Wood Johnson Foundation Health and Society Scholar at the Harvard School of Public Health. He is a practicing primary care physician at Brigham and Women's Hospital, where he sees his own panel of patients in an urban hospital-based clinic, supervises residents in their continuity clinic practice, and sees patients at a medical weight loss clinic.

His primary research interests are the evaluation of governmental and institutional policies intended to change dietary behaviors and the use of large data systems for population health surveillance and to explore the clinical epidemiology of chronic disease.

In 2016-17, he served as a Senior Advisor to the Acting Assistant Secretary for Health at the US Department of Health and Human Services.
